# Truth Hurts

:60 radio

Female voice:

When someone you've called a friend betrays you, the truth can hurt.

After the Civil War, African Americans voted Republican, for the Party that crushed slavery, for the Party of Lincoln. But when the G.O.P. proved M.I.A. on our issues, we changed our party and we changed our vote. We did it even though the truth hurt.

For 50 years now, we've trusted the Democrats for education, health care, and economic opportunity. And the truth is, today's Democrats take us for granted.

It is Democrats who are blocking the right of black parents to choose schools for black children. It is the Democrats blocking Republican attempts to expand our options in health care and Social Security. And it is the Democrats who are heaping new taxes on working people.

Our old friends have gone off on us. That's the truth.

That's why I'm a Republican now.

## Killed by Kulture

159

### **Kathi:**

When you talk about American culture, what is there except Black culture? Music from Louie to Aretha to Latifah; literature from Fredrick Douglas in his study, to Tupac in the street; Dance from Bo Jangles to Alvin Ailey. We've got the blues, the bebop and the bling. And in politics, we've got the Democratic Party. Why would *you* vote Republican?

### **David:**

That's it -- We've got the culture, and it kills. You go anywhere in the whole world, and wherever someone is down and out, abandoned and beat, enslaved and betrayed, he's singin some Black song. We've chronicled the knife, the needle and gun.

Well I don't play that anymore. I don't abandon my wife or my kids. I don't use welfare or drugs, and God help any child of mine I catch hangin' with dopers or bangers.

I am the *support* of my family.

And, oh yeah – I don't even THINK about voting Democrat anymore.

## **Double Standard**

159

### **Kathi:**

Under the Republicans, Black youth have no rights. In Jenna, a fight breaks out at school. The next night, the White kid involved attends the prom. But the Black student is suspended; then he's jailed; then some white prosecutor indicts him for attempted murder.

In Douglas County, Georgia, a Black scholar athlete gets ten years in prison for consensual sex; and even when the legislature repeals the statute that put him there, a Republican Attorney General resists setting him free.

### **David:**

Oh, really? In Jenna, the prosecutor who brought those crazy charges is a Democrat. And in Georgia, the Attorney General who tried to keep Genarlow in jail is not only a Democrat: he's a Black Democrat.

These Democrats know they can cater to bigots all day, every day -- Just blame it on the Republicans.

Betrayal is what we get for uncritical allegiance. Betrayal is what we get for one-party politics.

## Social Security

*Herman:*

I'm Herman Cain.

Democrats oppose Social Security reform. But here's what they don't tell you: Social Security is the most discriminatory government program we have.

The average retirement age is now 66 years. But the average life expectancy of a Black man is now 68, and the life expectancy of a White man is 74. Black men get two years of retirement benefits, and white men get eight years, after we pay into Social Security our entire working lives.

The current social security structure is bad for everybody, but it is worse for Black people

The Republican plan for Social Security reform lets us keep our payroll tax in personal retirement accounts.

If the Republican plan becomes law, we can insure a secure retirement, where your retirement savings go to you, not to the government. The Republicans understand this.

## Playground Fears

155

**Stevi:**

Even in grade school, our daughters were bullied. A few over-aged sixth-graders used to beat kids up for snacks or change on the playground. Well, we all know how that goes.

**Michael:**

But by the beginning of middle school, some of these kids were prowling the grounds with real weapons. A few clocked drugs for adult criminals, and believe me, those gangstas were recruiting.

**Stevi:**

The authorities did nothing. And the teachers who pressed our safety concerns were transferred out. The district said they were “rocking the boat.”

**Michael:**

Well, eventually we got second jobs. We send our kids to private schools now. But we can hardly afford it, let alone college for their future. And we’re working ourselves sick trying.

**Stevi:**

I resent these Democrat politicians who block Republican school choice proposals. Without that help, we risk our kids’ safety now, and their futures later.

**Michael:**

What kind of a choice is that?

## **Sneakers**

155

### **David:**

I've got a little question for our Black Democrat Party leadership: Why are African American youth being killed for shoes?

### **Kathi:**

Let's talk about the real problems in our community for a change.

Today, the high school drop-out rate for black youth is quadruple the drop-out rate for whites. The black-on-black crime rate is triple the white-on-white crime rate.

### **Michael:**

70 percent of the children born into our community are born out of wedlock.

The rate at which Black babies are aborted is triple the rate for whites.

### **Stevi:**

These are the problems ravaging our community. And the answers the Democrats give are the same left-wing liberal social policy that caused them – no school choice, no restriction on abortion, no defense of marriage, no God in the classroom, no 10 Commandments in the courthouse.

### **David:**

So I ask you again, you Democrat Party leaders: Why are African American youth being shot for shoes?

## **Katrina**

Michael:

Democrats call Hurricane Katrina a “Republican conspiracy.”  
But that’s what they always say when they mess up.

Barb:

Floodwaters poured into New Orleans when the 17<sup>th</sup> Street Canal levee burst. But before that, everyone knew the city was at risk. They knew the levees could not withstand a major storm.

Michael:

But instead of addressing the problem, Louisiana politicians committed \$1.4 billion dollars to sports teams instead. When the storm hit, Democrat mayor Ray Nagin ignored the evacuation plan. A bus fleet that could evacuate 12,000 citizens per run was left on low ground

Barb:

The rains came, the buses flooded, and people died. Meanwhile, Louisiana’s Democratic Governor, Katherine Blanco delayed federal help by failing to issue a timely evacuation order.

Michael:

Today, Democrats call Katrina a “Republican conspiracy.”  
But that’s what ~~they~~ the Democrats always say when they mess up.

## **Abortion**

:60 radio

Voice 1:

Today, one-third of African American pregnancies end in abortion. Black babies are terminated at triple the rate of white babies. Why, under Title 10, schools can counsel scared kids to abort their babies without even consulting their parents. Each year, the abortion mills diminish the human capital of our community by another 400,000 souls.

The Democrat Party supports these liberal abortion laws that are decimating our people. But the individual's Right to Life is protected in the Republican Platform.

Democrats say they want our votes. Why don't they want our ~~lives~~ babies?

Voice 2:

Learn the racial truth about America's abortion laws. Don't buy the Democrats' lie! Killing unborn babies is no way to help those in poverty.

## **Terrorists**

159

### **David:**

On September 11, 2001, the terrorists came to the United States with the sole purpose of killing as many people as possible. They didn't care about white or black, rich or poor. They came to kill us.

But the Democrats in Congress are attacking the Republican Party. They seem pretty angry that Republicans didn't wait for permission from France to defend our country. Angry that we dug Saddam Hussein out of a hole and hung him out to dry. Angry that we're fighting the war on terror abroad to keep us safe at home.

What's wrong with these Democrats? The terrorists will strap a bomb to a child and let him or her die to kill us. This is not a rational enemy we are fighting.

Freedom has never been free. We must support and honor those who fight for it around the world to protect us here at home.

The Republican Party understands this.

## Don't Snitch

165 words

**Michael** (fast): Don't mess with the other guy's business. Don't mess with the other guy's cut. Don't snitch.

**Stevi**: Who supports abortion, which kills black babies at triple the rate of whites? Don't say.

**Michael**: Don't snitch.

**David**: Who is it is sells out black school children to the teachers' unions?

**Michael**: Don't snitch.

**Kathi**: Don't tell what party sells out the black entrepreneur to the downtown developer.

**Michael** (fast): Don't mess with the other guy's business. Don't mess with the other guy's cut. Don't snitch.

**Stevi**: Don't say who cuts and runs from the bloodthirsty terrorists who attacked us.

**Michael**: Don't snitch.

**David**: Who it is that blocks school choice? Don't say.

**Michael**: Don't snitch

**Kathi**: Who it is that raises taxes on working people?

*(pause. Drum roll.)*

**Michael**: Oh, go ahead. Snitch.

**Stevi**: Talk Tell.

David: Do say.

**Michael**: Shout out. Tell it from the mountain.

**Kathi**: Let the people know what the Democratic Party really does.

## Half-Crazy

154

### **Kathi:**

It doesn't bother me when Black politicians enroll their kids in parochial schools.

Why should they send their children to urban schools that lag two-to-three years behind suburban schools?

Why should they endanger their kids at a place requiring metal detectors and security guards?

Why should they bet their futures on institutions where a third of the students fail to graduate?

I've got no problem when the politicians we elect choose better schools for their own kids. My problem is that they won't let us do the same for ours.

School choice is the most important vote a politician can cast for our youth. That fact that these Black Democrats take care of their own, even while they block school choice for us, shows they're only half-crazy.

But how crazy are we when we re-elect them, year-after-year?

**Star:**

Star Parker:

The proverb says, a good man leaves an inheritance for his grandchildren.

Hello, I'm Star Parker. Research shows that Blacks fail miserably under the current payroll tax system. Under Social Security today, African Americans receive \$21,000 less in retirement benefits than whites with similar income and marital status. One-third of Black men die before reaching their retirement age.

Instead of piling on more taxes, like Democrats suggest, Social Security Reform should allow us to put our payroll tax into personal retirement accounts, just like members of Congress. If Black families do this, we'll accumulate real wealth for a secure retirement — just like members of Congress.

The proverb says, a good man leaves an inheritance for his grandchildren. Social Security reform will allow all Americans to flourish in financial independence, and to leave a legacy for our kids.

Vote Republican!

## **Accountability**

159

**Kathi:**

You've probably heard the Democrats complaining about all the tests our kids are forced to take under the "No Child Left Behind" act. This is strange, considering that most of them voted for it. They've obviously changed their minds.

**Stevi:**

President Bush hasn't changed his. When he came into office, he called the failure of our urban schools "the soft bigotry of low expectations." He told our nation's educators to close the test score gap between black and white, between rich and poor. And he told them that from now on, they would be held accountable for how their students performed.

**Kathi:**

And that's what's happening. Last year, African American students posted their highest math scores ever. And the reading gap between black and white students in their formative years narrowed to an all-time low.

**Stevi:**

African Americans have obviously benefited from the new school accountability. So what is it that the Democrats are complaining about?

## Eugenics

Why do Democrats support abortion?

From its beginning, the pro-abortion movement targeted us. Planned Parenthood's Margaret Sanger wanted to lower the birth rates of Blacks and Orientals. Sanger called for the creation of a Population Congress. She wrote:

“The main objects of the Population Congress would be: to apply a stern and rigid policy of sterilization and segregation to that grade of population whose progeny is tainted....”

Later, Sanger learned to hide her racism. She wrote Dr. Clarence Gamble, warning:

“We do not want word to go out that we want to exterminate the Negro population.”

African Americans can *see* that abortion is aimed at our kids. That's why most abortion clinics are zoned in our neighborhoods. So why do our leaders in Congress support the pro-abortion agenda of the Democrats?

Or more to the point: Why do we support them?

## **Secularism**

155

**Stevi:**

Recently my little girl showed me her school science book. It teaches that man is an animal who evolved from apes by competitive mating and killing.

**Michael:**

At home, we teach her the opposite – that life is the gift of our Savior God, Who created us with a Divine Spark so that we could do good by our brothers and sisters.

**Stevi:**

Secular skeptics control the Democratic Party, and the public schools. Ever since the 1960s, they've been running an experiment on our community to see what life will be like if children are taught that religion is false, and that science is god instead.

**Michael:**

Well, the results are in. Our community has the highest divorce rate, the highest murder rate, the highest abortion rate, the highest school dropout rate, the highest drug abuse rate, and the highest unemployment rate.

**Stevi:**

As far as we're concerned, the experiment is over. We're voting Republican.

## **What's With This?**

157

### **Michael:**

What's with Black Democrats and the teachers' unions?

For generations now, these unions have stuffed their pockets with taxpayer money, while depriving our kids of a decent public education, reasonable reports of progress, and any hope of school choice.

Why do Democrats march lockstep with the teacher unions?

### **Stevi:**

What's with Black Democrats and the abortion lobby?

African American babies are aborted at triple the rate of white babies. But Democrats in Congress vote for everything the abortion lobby wants, and against anything pro-life.

### **David:**

What's with Black Democrats and the military?

The Islamic terrorists who blew up the World Trade Center didn't give a bleep what color Americans they killed. We've got three million patriotic African American vets and active duty servicemen who defended us. Why won't the Democrats support them?

### **Kathi:**

On school choice, Black survival, and the War on Terror, Democrats do not serve our interests. Why should we serve theirs?

## God & Politics

159

**Stevi:**

From what does our community suffer? Is it some idiot insult from Don Imus, or Trent Lott, or Bill Clinton? Or is it something deeper?

**Michael:**

Our community suffers from spouses who no longer consider marriage a sacrament, We suffer from children who grow up without a father's discipline, and from schools that teach our kids that they are no better than animals.

**Stevi:**

Yet we continue to support the political party that removes the Ten Commandments from the courthouse, and prayer from public schools -- the party that cheapens our lives through abortion, and our marriages through same-sex unions.

I'm talking about the Democratic Party.

**Michael:**

The Republicans will protect marriage between man and woman. It was their party that abolished the marriage penalty in the tax code, and gave a historic role to our churches in elder care, drug rehabilitation, and social welfare.

**Stevi:**

Vote your values. Vote Republican.

## Body Shop

Male voice:

I was still a Democrat when I opened my body shop. Heck, you don't have to be rich to know cars. I did all my hiring in the 'hood. I *wanted* to invest in my community.

So I paid the state its license tax, and another to the city, and another to some "special" district I never heard of.

This ain't Park Avenue. Half the buildings here have boarded windows. Absentee landlords use them for tax write-offs.

But the City inspectors don't bug them: they bug ME. They tell me what paint to use, how to pave my parking lot, and what my display sign should look like. I even fill out forms to prove the Black kids working here aren't from I-raq.

And now they want me out. Some deep-pocket developer wants my lot for some tax-abated project.

It's the Democrat political machine that does this to me. The only interest they have in Black business is to take as much from it as they can, as fast as they can.

That's why I vote Republican now. I'm no Democrat anymore.

## Won't Help Much

Michael:

You say voting Republican won't help our community.

Well, you're mostly right. Politics won't change the fact that 70 percent of our children are born out of wedlock. Only we can change that.

Regina:

Politics won't change how drugs and gambling impoverish our communities. Politics won't stop gangs of unsupervised kids from committing acts of senseless violence. We're the only ones who can change that.

Michael:

But there are some things politics can change. The Republicans can give us more choices in where our kids go to school. And they'll give our churches a bigger role in how aid is distributed.

Regina:

Republicans will let us store some of our taxes in personal accounts for health care and retirement. Above all, Republicans will let us keep more of the money we earn – the best program of all.

Michael:

So don't expect much from the Republicans – just an improvement on the runaround we've been getting from the Democrats all these years.

## **Martin Luther King**

:60 radio

Female voice:

Martin Luther King had a dream. He saw the sons of former slaves and the sons of former slave owners sitting down together at the table of brotherhood.

Yeah, sure. "The content of their character, not the color of their skin." That's great.

But in the mean time, I want my kids to have the skills they'll need to survive. I don't want them struggling with long division while white kids are learning calculus. I don't want them stumbling around one language while white kids are learning two.

That's why I vote Republican. I want the highest school standards for my kids, and I want them to be tested, so I'll know how they're doing. And if our school isn't cutting it, if our teachers aren't cutting it, I want school choice - another thing the Democrats don't want us to have.

See, I also have a dream. When they meet the sons of former slave owners in the workplace, my sons are going to be kicking butt and taking names, lady. That's my dream.

## Hate Crimes

158

### David:

Give the White Man the benefit of the doubt: It's fear as much as prejudice that makes him judge Black youth with prejudice.

When he sees a Black kid hit a White kid in a typical schoolyard fight, he thinks he sees a killer. That's what happened at Jenna, Louisiana.

When he hears that an African American boy performed inappropriate sex with a younger girl, he thinks he's found a child molester. That's what happened in Douglas County Georgia.

And that's why so-called "hate crime" laws hurt us. Whites tend to judge Blacks by what they imagine, not by what happened. That's been the REAL history of so-called "hate crime laws." A Black defendant is twice as likely as a white to have his sentence increased because of them.

The Democrats scream about the excesses of the courts against young Black men. Then they turn around and support these racially biased laws.

Go figure.

## **Don't Blow It**

154

### **Stevi:**

It's harsh that a promising 17-year-old scholar-athlete should be branded for life because of an act of consensual teenage sex. But what bugs me is that his defenders don't care about the 15-year-old girl-child he abused.

I care. My own daughter is 15.

Unlike his liberal defenders, Generalow Wilson had the decency to apologize for his acts. He should. The same easy attitude that has a 15-year-old girl-child servicing a 17-year-old football star is going to have her pregnant at 16, and abandoned at 17. And one more Black child will grow up without his natural father.

Generlow Wilson is no hero to me. If I have to choose between a world where it's okay for my 15-yr-old daughter to be sodomized, and one where her partner is shamed and punished, I know which world I'd choose.

But then, I'm one of those cruel Black Republicans you hear about.

## **Black G.O.P.**

158

### **Michael:**

I started voting Republican because I got tired of Democrats defending high taxes and lousy schools. I was sick of liberal lawyers defending the criminal thugs who are drugging our youth. And I was tired of hearing Democratic leadership squeal like stuck pigs whenever our armed services whacked some terror-sponsoring, two-bit tyrant.

When you're the only Republican on the block, people ask why. So I'll tell you: Whether its food stamps, or quotas, or welfare, everything the Democrats do makes us depend on someone else.

Republicans liberate us. They favor school choice, so our kids won't be trapped in some stupid, dangerous drop-out farm. They treat self-defense as an individual right. And above all, they let us keep more of what we earn, to spend as we choose.

Democrats say that if we give them more, they'll take care of us. Republicans cut taxes, and trust us to take care of ourselves.

## **Hazardous Dukes**

156

### **Michael:**

I was raised to tolerate what's different, and to celebrate diversity. I've got no special problem with Moslems, Shi'ite or Sunni.

But when "what's different" tries to kill you, all bets are off. That kind of diversity is intolerant, and intolerable. That's why I enlisted after 9-11.

A few years back, David Duke visited Damascus, Syria, where he praised the government that's been smuggling bombs to the terrorists in Iraq. A couple months later, my unit was in Baghdad, protecting first-time Iraqi voters. And just last spring, my unit was back in Baghdad with General Petraeus, establishing peace.

Now, I understand why a former Ku Klux Klanner favors the terrorists. They fight voting rights in Iraq, just like he does back home. But what I want to know is why so many of the Democrat politicians I helped elect are on the same side of the Iraq war as David Duke.

## Bamboozled

Regina: Thank God for the Democrats! When the Republicans tried to privatize Social Security, they protected us.

Michael: No way. Under Bush's plan, you'd have kept some of that tax you already pay to the government in your own personal retirement account.

Regina: How's that better than Social Security?

Michael: You could have retired with an estate worth a couple hundred thousand dollars.

Regina: Get outta here! I don't earn that kind of money.

Michael: You don't have to. An ordinary salary will do. Just a few percent saved will accumulate that much in a private account if you let it compound over your whole working life. But the Democrats "protected" you from that.

Regina: Brother, you've got it wrong. It's the Democrats who are working for me.

Michael: You mean it's the Democrats that are working you. When the Democrats blocked Social Security reform, they cheated you out of your savings, and bragged about it to your face. And now they expect your loyal vote in return.

Regina: They'll get it, too.

Michael: I don't doubt it, sister.

## **Black-Out**

159

### **Michael:**

Last year, talk show host Warren Valentine organized the “BlackOut”. He told us to stop buying-and-selling-and-working, for one whole day, to protest unequal justice in America. Black youth are getting harsher sentences than whites for underage sex in Georgia, for schoolyard fights in Louisiana, and for crack cocaine possession everywhere.

Well, whoop-di-doo, what’s new? I find it incredible that Valentine could get the facts right, but miss the point completely. Our community is devastated by drug abuse; by black-on-black youth violence, and by premarital teen sex resulting in child abandonment.

I don’t give a rat’s posterior whether White Liberals are dumb enough to permit this behavior among their own. But I won’t accept Brothers who think the only thing wrong with drugged Black kids shooting one another, or knocking each other up, is that they get punished.

I want allies who distinguish right from wrong.  
That’s why I vote Republican.
